Release: Kickstarter Campaign

What is Fight or Flight?

Fight or Flight is a hilariously uncomfortable game that will push your boundaries.

We made Fight or Flight initially as a game where you could gross out your friends. Working on the game over time, however, we've come to craft a game that focuses a lot more on experiencing physicality and intimacy among friends, and the important role consent plays in that experience.

What's in the Box

- 20 Mild cards
- 20 Medium cards
- 20 Spicy cards
- Rulebook

- "I survived fight or flight" stickers

Development:

We'll be launching on Kickstarter late Summer or early Fall, and are currently working on small polishes and getting into festivals in order to get people to play the game.
